Sir:

In response to the Office Action dated June 25, 2004, please amend the above-identified U.S. patent application, as follows:

IN THE CLAIMS:

Please amend the claims as shown in the marked-up listing of Claims appended hereto.

REMARKS

Claims 21-40 are amended to define the invention more clearly over the cited US Patent 6,038,593 to Huckins. The amendments are fully supported in the Specification as filed, and

the logic web is incrementally extended "on the fly" in response, at least in part, to communication signals sent from an external source. This is a distinctly different method of "on the fly" remote computing not disclosed or suggested in the Huckins patent. Depending Claims 22-34 and 36-40 are deemed to be patentably distinct on the same grounds.

In summary, Claims 21-40 are deemed to be patentably distinct over the cited prior art and in condition for allowance, and it is requested that a Notice of Allowance be issued therefor upon reconsideration.

This response is filed with a certificate of mailing within the time allowed for response (on the Monday following a weekend due date), and with total and independent claims after amendment numbering within the limits originally paid for with the filing fee. However, if any fees are deemed to be due for acceptance of this response, authorization is hereby given to charge our Deposit Account No. 502633.
